

Helsinki-Vantaa Airport energized with IMEFY Italy transformers

REFERENCE LIST FINLAND

IMEFY Italy - FINLAND Reference List.

Cast resin transformers IMEFY spa Italy manufactured.

October 2018

Finn Electric Oy, part of Klinkmann Group, is specialized in power distribution and power protection solutions. Our services cover the total life cycle of the investment: application consultation and planning, complete documentation, delivery, installation, customer training and maintenance.

Our typical projects are in electrification objects in commercial centers, industries, hospitals, hotels and in other buildings as well as in power and in production applications. We work at the data centers and substations too.

Our technical consultancy and design support will ensure the right solutions for you. We make and deliver the necessary electronic project documentation in our offerings.
